## PRODUCTS

In order to match your color choice, we have determined the approximate PMS codes corresponding to the Pantone color chart. It is important to note that these colors may vary slightly during production.

### ORDERS

All purchase orders must be completed using the numbers and corresponding descriptions of the item, color, material texture and printing as per the catalog. Send orders to [info@vinylform.com](mailto:info@vinylform.com).

### STANDARD SILKSCREEN PRINTING

This printing process provides access to the product's entire exterior surface. The first color print is included in our prices. In addition to our 20 standard colors, SILKSCREEN printing offers the option to print other colors from the Pantone chart. Please refer to the PMS color fee.

### NON-STANDARD SILKSCREEN PRINTING

Full-bleed printing, half-tones, large solid surfaces, precise color registering, printing on black or dark color vinyl will require a quote following the evaluation of the artwork.

### EMBOSSING

Offered on materials that are appropriate to this type of printing. The first embossing from 5 to 12 sq. in. according to the item, is included. Except for leather and Italian leatherette items.

### PRODUCTION

Production delay is established from the date of the order and following the acceptance of the proof. About 10-15 days after acceptance (for catalog products). The production delay for custom items can vary depending on the complexity of the items ordered. Our manufacturing process allows for a +/- 10% overrun. This should be considered as normal and accepted.
